

FIG. 1 is a schematic diagram of a system 10 for providing a user with a user interface for a system 10. The system 10 includes a user interface 12, a processor 14, a memory 16, a network interface 18, and a database 20. The user interface 12 is connected to the processor 14, which is connected to the memory 16, the network interface 18, and the database 20. The network interface 18 is connected to a network 22. The database 20 is connected to the network 22. The system 10 is configured to provide a user with a user interface for a system 10.
